Go to the sprouets tower. Fights are easy with bird or Fire Pokemon. After receiving the HM05 Flash from the chief monk, leave the tower. Heal the Pokemon and go to the gym. You will be challenged by Carlos. His Squirtle is somewhat stronger and he has Elekid, but you can easily beat him (for now). Beat the other trainers and face Falkner gym leader. It has Pidgey and Pidgeotto both below lv10. You earned your first badge. When you're on the street, you'll get a call from Professor Elm. Go to the Pokemon Center and get a (Togep) egg. Either take it from 1500 or reset it in the PC. Now take the southern exit towards the city of Azelea. Purple in Azelea Follow the road and fighting trainers on the way. You will eventually reach the Pokemon Center. The fisherman will give you an old rod (which finds only Magikarp) if you answer Go to the Union Cave. In this Union Cave floor, there is a very rare chance that you will come across lv1 Mudkip! Its a good idea to grab a grab and perhaps train before going further into the cave. After leaving the cave, follow the path to the city of Azelea. Azelea Town 1st visit spruce that you have to do is probably heal Pokemon. When done with healing and shopping you will notice that you cannot enter the gym. Enter Dom Kurts (he has an acorn tree next to it). Talk to him and he'll leave. Get out of his house and leave the city to the east and enter Slowpoke Well. You will have to battle a few missles here. When you beat them all, head to Kurt and you will be taken back to him. Now the gym is available again. When you enter it, you can have an optional fight with Carlos. You have to have two Pokemon (with an egg not in slot 2) as it is a double battle. All the trainers here use the Pokemon bug. So use your fire and/or bird Pokemon. Eventually you will come across the leader of the gym Bugsy. He has Metapod, Kakuna and Skler. Scyther is the most dangerous with his Fury Cutter (which gets stronger after each hit). You shouldn't have a problem with quilava or Pidgotto. Go to the woods. Before you enter, your opponent will challenge you. Hit him and be on your way. Azelea's Goldenrod head into the woods. It's time for a mini-game of sorts. You have to get Farfetched back to his coach. Just click on the bottom with a certain side and it will end up back (will update the exact sequence when re-run the game). Talk to the boss of the coach to get the HM01 Cut. Note that when you return to New Bark Town at any time with 5 or fewer Pokemon on your team, you can use the cut to get over your house and get a free LV10 Pikachu if you answer yes! Go to the forest and get out of it. Shroomish is there if you want to catch it, but it's rare. Fight some coaches on the way and you reach. Goldenrod City 1st visit there are a few things to do in Goldenrod City. First, in the building in the lower right, you can get a free bike. Secondly, the underground has several trainers for the fight and a coin case game nook. The corner of the game has LV1 Charmander, Dratini and Larvitar as prizes, but you'll need a lot of coins. Third, at Radio Tower, you can do a quiz and get some kind of radio. I advise you to catch the (female) Drowzee below Goldenrod and exchange it for Machop in the department store because it will be super effective against the 3rd gym and because it gets an exp boost because it is traded Pokemon. Go to the gym. Oh no, Carlos again. Luckily, his Pokemon are too tired because of Whitney's gym leader. Enter the gym and fight with trainers. If you took my advice and got a Machop, it would be a breeze. Otherwise, it's going to be hell, especially Whitney Miltank. Shelly cry a bit and you get a simple icon! After defeating the gym, enter the house just above hall on the right (flower shop). Because you beat Whitney, the girl inside will give you Squirtle Waterbottle. Exit from the city Ecruteak City. Goldenrod's Ecruteak Follow the road and battle some trainers on the way. Enter the National Park. When you get to the park itself, you will be met by another new rival, Ard. It uses the Pokemon bug so fire or bird Pokemon to kill. When you beat it, go to the northern very point in the park. You'll notice that a piece of the fence has disappeared. If you follow the path to the left, you will find a TM containing Dig. Understand the way to the right and you will be able to see the secret path. Enter it. Talk to the girl and challenge her. If you win, you'll get a free Lv1 Treecko. She has Chansey and Delcatty so use Machop again. Get out of the secret place and then get out of the park on the east exit. Awakening Sudowoodo with Squirtle Waterbottle and grab/kill it. The guy to the right of the Sudowoodos seat gives you a HM06 Rock Smash. If you have a pokemon with a cut, you can take the other way back to the southern entrance to the National Park (since the eastern exit is blocked) and enter the bug catching contest (missing this means you missed the opportunity). ves (dot) lv Scyter or Pinsir almost guarantees the first prize - Sunstone. Back to the Sudowoodos previous location and head north to Ecruteak City's 1st Visit Go to Pokemon Center. Bill will come and talk to you and then he will leave (when you return to Goldenrod, you can visit his house for Lv 20 Eevee). Heal the Pokemon. There are many things to do. Enter the house just above the Pokemon Center and fight with 5 Kimono girls and their evolution Eevee. After beating them all, talk to the guy below to get HM05 Surf. Go out and go to the burnt tower. Now we get a rival pair. They will use Volbeat and Illumise. So use fire/flying attacks. Enter the tower and you will get into another rival (silver) battle. Go to the tower, fall into the pit and wake up with the dogs, after which they fled. Get out of the tower and enter the gym. The gym has an invisible path to the leader. Stand to the right of the old man battle two steps to the right, four steps up the battle three steps to the left, one step up the battle one step to the left, one step up. Gym Leader has one Gastly, two Haunters and Gengar. Gengar will not hesitate to use hypnosis and Dream Eater or Hypnosis and Shadow Ball combos. Ghost/Psychic/Dark does wonders. Get out of the gym and heal. Take the western exit towards the city of Olivine. Ecruteak's Olivine Follow the path and battle some trainers. You will reach MooMoo Farm. On the farm sick Milank. Feed him seven oran berries to cure him. When you cure it, you can buy MooMoo milk on the farm. Follow the route further. Olivine City 1st visit When you head to the gym, the opponent (silver) comes out, but he won't fight you. Go to the lighthouse and fight the trainers until you're on the Talk to Jasmine and leave the lighthouse. Go to the cafe and get HM04 Strength (is a must). There is nothing to do here (except trading Krabby for until the Amphora on the lighthouse is cured. We have to cross the ocean and get to Cianwood City. Olivine's Cianwood Ocean Cross and Battle/Avoid Trainers and Wild Pokemon. You can't enter the vortex of the island yet. Eventually you will reach Cianwood City First to move to the southern majority of the buildings. Talk to the guy inside to get SecretPotion (to treat Amfaros at Olivine Lighthouse). One house above has a guy who will give you a shuckle if you have a free slot (if you want to keep Shuckle, don't talk to him again.) Go to the gym. The girl blocks the entrance. Fight her. She'll get in. You will find out that she is a cousin of the gym leaders. Head inside and fight trainers. You have to have Pokemon with strength for boulders. Now challenge the leader, Chuck. Hooray, your 5th badge. Go outside and talk to a woman near the gym and get a HM02 Fly. Now fly or swim back to Olivine City. Olivine City 2nd visit the Head Lighthouse and give SecretPotion Jasmine. You got out of the lighthouse and go to the gym. His Carlos, but he won't fight you this time. Now fight with a tourist, and then with the leader of the gym, Jasmine. She has two Magemite and a StiliX. Wau, six badges. Two more badges. Head back to Ecruteak, and this time take the east exit. (You can make a second mistake catching the game now). Ecruteak in Mahogany You can use two routes. Either you can go through the caves, or take the easy way and surf a bit. Fight with three coaches and enter the city. Mahogany City 1st visit Damn, gym locked again! Talk to Amelia in front of the building to get some interesting items. Now take the northern exit to The Lake of Rage. Mahogany to Lake Fury Oh No, another battle with Ard, a mistake contender. He hasn't improved much. It's going to be an easy fight. Head north. If you go to the trough of the building, you will have to pay the Rockets fee. So if you walk down the grassy path to Fury Lake, it's a rival pair. But they're not fighting you. Swim in the direction of Red Gyrodos and grab/kill it. You'll get a Red Scale that you can exchange with Mr. Pokemon on Exp Share. Talk to Lance and head back to Mahogany. Mahogany Town 2nd visit Go to the (shop) building in which Amelia stood. Lance will open a secret entrance to the missile base. On each pole, you will encounter two members of the rocket until you hit the switch next to the scientist. Somi from the other stairs. Lance will heal your Pokemon. Fight with more missiles and go down another ladder. There is a female rocket (behind the computer). Fight with her and talk to her later for the first password. Next go to the full left and fight and talk to the rocket after the scientist with Ditto for the second password. Head up another ladder and open the door to the rocket executive. You get a new rival duo. Jess and Jamie. They Ekans and Koffing (similar to our favorite pair of bad guys) and yes, it's a double battle. After that beat the executive and talk to for a new password. Go back to the door with the electrodes behind them. Open the door with a new password and head in. After beating the female executive, you will have to grab or kill the electrodes. Then leave the room and talk to Lance. You get Clamperl, who knows Whirlpool. Leave Rocket's headquarters, stay in the Pokemon Center and enter the gym. Use a slippery floor until you reach the leader of Price's gym. He has Sel, Dugong and Piloswin. Use electric attacks against Seel/Dewgong and shoot against Piloswine. Haunter Yes, just another icon to go before the Pokemon League! But what is it? We got a call from Elm. Team Rocket has taken over the radio tower!! Go back to Goldenrod City to kick some more rocket. Goldenrod City 2nd visit head inside the radio tower and battle your way to the top. You think you just saved the director, but it's a disguised missile. After beating it, you get the key to the underground door. Go underground and open the door. Just when you were going to continue, the opponent (silver) would challenge you again. Put the waste to it and defeat the rocket near the switches. Tap the switches in a certain order (will be placed when playing the game) to open the way to another rocket and Bugler. Enter the door. Defeat another rocket and then we have to fight our favorite rocket duo, Jess and Jamie. They haven't improved much. I think they also have Wobuffet now. Continue along the path and defeat the rocket until you reach the real director. You get the door key on the 3F radio tower. Take the stairs and get all the gifts (one other Amulet Coin). Go back to the radio tower, open the door on 3F and beat your way to the top again. You have to fight two leaders. I recommend using a type of fire to first one and water for the second leader. After the victory, Team Rocket is disbanded (although we will get in touch later) and the director will give you the Rainbow Wing. Now you can grab the LV45 Ho-oh on the tin tower in Ecruteak. Return to Mahogany Town and follow the east exit to the IceWay. Mahogany at Blackthorne you will come across several coaches. Nothing you can't handle. Well, well. See who blocks the entrance. His Carlos again. Fight with him to enter the Ice Path. When inside, first go left and then at HM07 Falls. You'll need it to reach the league! Now follow the path, push the rocks down the holes and you will eventually reach the exit. Blackthorne City If you want to move HM removed, you only have to go to Move Deleter in one of the houses. You can also exchange Dragonair for Rhydon (ARE YOU MAD!!!). Enter the gym (Bring Pokemon with Power and Rock Smash). Fight with all trainers and throw stones at the right holes. Walk to Claire. U three Dragonairs and Kingdra. Use the ice attack for Dragonairs and Dragon Attacks for (Or if you use save stats like me, good luck abusing Hypnosis with Haunter/Gengar and Dream Eater them all to death). Watch out for Dragonairs shed skin ability! Yes, the last Not badge. Clair refuses to give you a badge. Damn it. Go to the Dragon Den (you have to bring Clamperl for whirlpools) and get Dragons Tooth. Claire will come to you and give you a badge. There are three Dragon Masters in the den. Depending on what you beat them, you get a certain stone of evolution. Leave the Lair to get a call from Professor Elm. He wants you back. Blackthorne exit on the south exit (don't forget to buy Ultra Balls for later!!!) Blackhorn at New Bark Just follow the road down, fighting trainers on the way. Eventually you will arrive on the first route. Follow him back to New Bark Town. New Bark Town 3rd Visit Enter The Lab and talk to Professor Elms. You'll get Master Ball! Go to the water and swim to Kanto (it is very rare to meet Squirtle in the water!). New Bark in Pokemon League You have already arrived in Kanto. Are you sure you are ready to meet with elite coaches? You need a Pokemon to know the waterfall to climb to Toho Falls (the anagram of Johto Falls). But what is it! Amelia comes out of the cave to fight you again. Hit her sorry and enter the cave. There is a moonstone inside (if you have Eevee, you can get Umbreon, or develop your Clamperl). Climb the waterfall and get out of the cave. Swim through and battle all the trainers on the way. Eventually you will come across a house where you can rest your Pokemon. A little further is the girl who is attacked by Pikachu (I always knew that Pikachu was evil). But no, it's a trap! She (Ashley) and her Pikachu steal your badges! Fight her Pikachu to get you the badges that are hidden on the ground. Fight with two coaches and enter the Winning Road. Go to your PC and get out the Pokemon who know HMs Surf, Power, Rock Smash and Clamperl with Whirlpool. The potion redesign the cave, so you will need a few HM slaves. It's evil, the man you are. Make your way through the cave until you reach the exit on the right side. Tap the boulders, and just when you are about to leave the cave, the opponent (silver) appears to fight. Kick it (last time in this beta) and enter the Pokemon League building. Pokemon League Heal all your Pokemon and store a lot of healing and reviving items. There's also an old man with Pidgeot and he can teleport you home if you need more training. But hey, if you've followed this step-by-step guide, you should have no problem! Its time to finally fight E4! Champion! First, Will with his psychic Pokemon. A strong electric Pokemon can take care of its two Xatu and its Slowbro. I just used my Gengar to lay it out with my newly learned Shadow Ball. Next up is Koga, a former gym manager. He uses poisonous Most of his Pokemon are weak to shoot, but use psychic or electric Pokemon for his Crobat. Bruno, one of the first members of E4. Use Ghost/Psychic/Fight/Psychic/Flight Hes the easiest Karen is a Dark Pokemon user. Use a combat attack against her Umbreon and then use the types that her other Pokemon are weak against. Now it's his time for the champion, Lance. He will start with Gyrodos. Use electrical attacks. Use Ice (or Good Luck to Manipulate Hypnosis and Nightline or Shadow Ball) to his Dragonites. Use water against Charizard and Aerodactyl. Its finally over. Not! Zel. I mean, Carlos challenged us for the title. All his Pokemon on Lv50. Mixed team to win. Kick it to finish the game (Well, Johto part at least). New Bark Town 4th visit You start in front of your home. Move the step to get a call from Professor Elm. He has a present for you. Go to the lab, talk to him and get an S.S. Ticket. Now head to Olivine City to get on the boat. Olivine's Vermillion Jump Inside the Boat. The old man will ask if you've seen his granddaughter. Two sailors come and say they'll find her. Combat trainers, if you like, and head below deck. A sailor doesn't want to miss you. Find your friend above the deck in one of the rooms. Fight him back and forth under deck. The sailor will let you pass. Go to the captains' quarters and talk to the girl. Girl and you will be deformed back into the cabin of her grandfathers. Get out of the cockpit. Two sailors (who wanted to find her first) wanted to kidnap her! They were really Jess and Jamie! That's when the boat sinks. Go to the captains' room and check his desk. There will be some text about the key. Now you can leave the ship. You're in a cave. It's a light cave. Larvitar is in a cave as well if you don't want one on the corner of the game. Just follow the route until you reach the room with Jess and Jamie. Fight them and hit them. Move up a bit and take the GS-Ball. What is this!!! We are attacked by wild Lv60 Aggron (WTF??!) I told you to buy Ultra Balls in Blackthorne, didn't I? Grab it; He's good for later fights. Take the long stairs and get out of the cave. We're in Vermillion City now! Vermillion City Wow, this time (unlike gold) the building is finished! Unfortunately, zel hasn't opened his qtg. qgt; go to the gym. Yes, you don't have to make annoying switches! Beat Surge. It should be easy with Swampert. Unfortunately, unlike gold, you don't get TM L It also has a message from Carlos. That he'll get you later. (Damn, not a good loser). Head north to Saffron City's Saffron City 1st visit, two cliffs blocking the path to Lavender and Celeron. This is available in this beta yet. Go to Sabrina's gym. The pot was evil to us again! He changed teleports! Battle Sabrina when you eventually reach her. My Pokemon levels were basically the same. Just use Gengar or Umbreon or any other Dark/Ghost Pokemon. It will go down easily. Leave the gym and head north to Cerulean. Just when you want to enter Cerulean, you call from Professor Elms. Tell him about GS-Ball, and he'll tell you to visit him. SS Aqua II is also in Vermillion. New Bark Town 5th Visit Take Boat Boat Johto and enter Professor Elms Laboratory in New Bark Town. Talk to him. He tells you to go to Kurt's. Azelea City 2nd visit Yes, you can fly to the city of Azelea, but it will not cause an event. You have to go to Union Cave to call it. When you arrive in Azelea, enter Kurts' house and talk to him. It will take GS-Ball for a while. Go through the Forest of Ilex, and when you get out of it, fly back to Azelea and get the GS-Ball back from Kurt. Enter Ilex again and put the GS-Ball in the sanctuary. Celphy will appear (after 153 resets I finally got Brilliant Celebi). Grab it and take the boat back to Kanto and go to Saffron again. Saffron City 2nd visit Go to Silph'Co, and talk to the guard. Saffron's exit through the south exit. You will see Ashley and her evil Pikachu again. Talk to her and fight her. Now she also has Snorlax! Aggrons Iron Tail can 1HKO it. After beating it up, you get a prototype. Go back to Silf Co. Now you can go upstairs. But what is it? Everyone's asleep. On the upper level of the building, one guard woke up and would fight you with Arcanine and Houndoom (for starter Cyndaquil) or Mightyena (for totodile starter). Water / Fight Pokemon for Victory! Go to the room. Oh no, it's Jess and Jamie again. Finally their Ekans and Koffing have evolved and they also have Cacturne now. Deal with them and talk to the manager. He says that someone who knows a lot of ghosts in Johto knows how to fix the Ghost Buster. Who in Johto knows a lot about ghosts? Morty. Ecruteak Gym Leader, of course! Take a boat to Vermillion in Olivine and head to Ecruteak. Ecruteak 2nd visit (3rd if you have Ho-O) What? Hes's not in the gym! Go to the burnt tower and go to where you let the dogs go. Morty's there. He'll fix it, but only if you beat him in battle. Well, he did some serious training. His ghosts are around lv40 now and he is Misdreavus. Your own Dark/Psychic/Ghost must be strong enough to defeat them all. After the battle it fixes the Ghost of Buster, and it's time for you to move on to Cerulean. Serulean City Well, look who's standing in front of the gym. His Carlos and he wants to see blood. His Snordax and Blissy easily beat the Lv60 Aggron. Beat it (last time in this beta). Go east. Thanks to Ghost Buster, we can identify a darn ghost blocking the path. His Lv42 Haunter (Western dead end way to Mount Luna has Gengar). Catch them if you want and make your way through all the trainers. Absol can be caught on this route, so be prepared. Then surf to the power plant. Look who we have here. His Amelia. But she's not here to fight. She says it's the league champion's duty to recover the stolen part of the car. Fly back to Cerulean and enter the gym. A rocket with speech dysfunction says something about part of the machine before leaving. Head north from Cerulean to the Nugget Bridge. Blow Rocket and go back to the gym. Part of it is somewhere in the water! After restoring the part, return it to the Power manager next to the generators (you get TM zap Canon). A what? Rock tunnel also blocked? Yes, for the same reason as Celedon and Lavender. Fly back to Serulean. Go Nugget Bridge again and battle trainers. Eventually you'll see Misty on a date, but her boyfriend will run away after seeing you. Misty will be back at the gym. Rival couple also have. Fight them if you want to. They're as simple as ever. What is it, the route behind the old Bills house? Yes, this leads to a new entrance to the Mewtwo Lair. But it was closed because it is not yet complete. Go back to the gym and fight Mty. You should already know that water wins. Its now is the time to make the final event in the game. Magnetic pass. Saffron City 3rd visit Go to the Copycats house and talk to her. She lost her Clefey doll, poor of her. It will give you a pass on the magnetic train if you recover the doll. Fly to Vermillion, enter the Pokemon fan club and talk to a chubby guy. You'll get a Clefey doll. Now return it to the Girl Copycat in Saffron to get a Pass. You start in your bedroom, as in every Pokemon game. Check your computer for a free potion. Go to Professor Elms' lab and choose a starter. Elm gives you an assignment to go to Mr. Pokemon's house to get something. The lab assistant will give you another potion. When you try to leave the city a new opponent will challenge you into battle. His name is Carlos (real name zels) and he has an Lv5 Squirtle. Don't be alarmed because he doesn't know the water is moving. Just the usual tackle and tail whip. Just follow the route (and maybe train the starter) to Cherrygrove City there's not much to do here. Talk to the old man to get a tour and you will get a map of the city. You can also heal yourself at the Pokemon Center or stock up on some potions (Poke Balls are not available yet). Go north and follow the route to Mr. Pokemon's house. Talk to him and during the conversation, Professor Oak will give you Pokedex. Mr. Pokemon will also heal your Pokemon. Go back to Cherrygrove and go back to New Bark Town. When you leave town, a normal opponent will challenge you with an LV5 starter with a super element. Knock the shit out of him and go back to New Bark Town. New Bark Town 2nd Head visit to Elm Laboratory. After the conversation, show the egg to Elm. The lab technician has a present for you again. 5 Poke Balls. After all the talk, you have to visit your mom. It will give you a coin Amulet (Double money if Pokemon in battle holds it) and sneakers if you talk to her. Leave town and NPC will ask you if you want to know how to capture Pokemon. Go to Cherrygrove. Cherrygrove to Violet follow the northern route. Now you can follow the path that has been blocked by battling coaches. Fight some trainers, or avoid some of them and head to Purple City. Purple City You should probably heal the Pokemon and possibly restock the items. If you captured Bellsprout on the route between Cherrygrove and Violet, then you can exchange Bellsprout for Onix (Onix develops somewhere around Lv40 in Steelix). Go to the sprouts tower. Fights are easy with bird or Fire Pokemon. After receiving the HM05 Flash from the chief monk, leave the tower. Heal the Pokemon and go to the gym. You will be challenged by Carlos. Olivine's Cianwood Ocean Cross and Battle/Avoid Trainers and Wild Pokemon. You can't enter the vortex of the island yet. Eventually you will reach Cianwood City First to move to the southern majority of the buildings. Talk to the guy inside to get SecretPotion (to treat Amfaros at Olivine Lighthouse). One house above has a guy who will give you a shuckle if you have a free slot (if you want to keep Shuckle, don't talk to him again.) Go to the gym. The girl blocks the entrance. Fight her. She'll get in. You will find out that she is a cousin of the gym leaders. Head inside and fight trainers. You have to have Pokemon with strength for boulders. Now challenge the leader, Chuck. Hooray, your 5th badge. Go outside and talk to a woman near the gym and get a HM02 Fly. Now fly or swim back to Olivine City. Olivine City 2nd visit the Head Lighthouse and give SecretPotion Jasmine. You got out of the lighthouse and go to the gym. His Carlos, but he won't fight you this time. Now fight with a tourist, and then with the leader of the gym, Jasmine. She has two Magemite and a StiliX. Wau, six badges. Two more badges. Head back to Ecruteak, and this time take the east exit. (You can make a second mistake catching the game now). Ecruteak in Mahogany You can use two routes. Either you can go through the caves, or take the easy way and surf a bit. Fight with three coaches and enter the city. Mahogany City 1st visit Damn, gym locked again! Talk to Amelia in front of the building to get some interesting items. Now take the northern exit to The Lake of Rage. Mahogany to Lake Fury Oh No, another battle with Ard, a mistake contender. He hasn't improved much. It's going to be an easy fight. Head north. If you go to the trough of the building, you will have to pay the Rockets fee. So if you walk down the grassy path to Fury Lake, it's a rival pair. But they're not fighting you. Swim in the direction of Red Gyrodos and grab/kill it. You'll get a Red Scale that you can exchange with Mr. Pokemon on Exp Share. Talk to Lance and head back to Mahogany. Mahogany Town 2nd visit Go to the (shop) building in which Amelia stood. Lance will open a secret entrance to the missile base. On each pole, you will encounter two members of the rocket until you hit the switch next to the scientist. Somi from the other stairs. Lance will heal your Pokemon. Fight with more missiles and go down another ladder. There is a female rocket (behind the computer). Fight with her and talk to her later for the first password. Next go to the full left and fight and talk to the rocket after the scientist with Ditto for the second password. Head up another ladder and open the door to the rocket executive. You get a new rival duo. Jess and Jamie. They Ekans and Koffing (similar to our favorite pair of bad guys) and yes, it's a double battle. After that beat the executive and talk to for a new password. Go back to the door with the electrodes behind them. Open the door with a new password and head in. After beating the female executive, you will have to grab or kill the electrodes. Then leave the room and talk to Lance. You get Clamperl, who knows Whirlpool. Leave Rocket's headquarters, stay in the Pokemon Center and enter the gym. Use a slippery floor until you reach the leader of Price's gym. He has Sel, Dugong and Piloswin. Use electric attacks against Seel/Dewgong and shoot against Piloswine. Haunter Yes, just another icon to go before the Pokemon League! But what is it? We got a call from Elm. Team Rocket has taken over the radio tower!! Go back to Goldenrod City to kick some more rocket. Goldenrod City 2nd visit head inside the radio tower and battle your way to the top. You think you just saved the director, but it's a disguised missile. After beating it, you get the key to the underground door. Go underground and open the door. Just when you were going to continue, the opponent (silver) would challenge you again. Put the waste to it and defeat the rocket near the switches. Tap the switches in a certain order (will be placed when playing the game) to open the way to another rocket and Bugler. Enter the door. Defeat another rocket and then we have to fight our favorite rocket duo, Jess and Jamie. They haven't improved much. I think they also have Wobuffet now. Continue along the path and defeat the rocket until you reach the real director. You get the door key on the 3F radio tower. Take the stairs and get all the gifts (one other Amulet Coin). Go back to the radio tower, open the door on 3F and beat your way to the top again. You have to fight two leaders. I recommend using a type of fire to first one and water for the second leader. After the victory, Team Rocket is disbanded (although we will get in touch later) and the director will give you the Rainbow Wing. Now you can grab the LV45 Ho-oh on the tin tower in Ecruteak. Return to Mahogany Town and follow the east exit to the IceWay. Mahogany at Blackthorne you will come across several coaches. Nothing you can't handle. Well, well. See who blocks the entrance. His Carlos again. Fight with him to enter the Ice Path. When inside, first go left and then at HM07 Falls. You'll need it to reach the league! Now follow the path, push the rocks down the holes and you will eventually reach the exit. Blackthorne City If you want to move HM removed, you only have to go to Move Deleter in one of the houses. You can also exchange Dragonair for Rhydon (ARE YOU MAD!!!). Enter the gym (Bring Pokemon with Power and Rock Smash). Fight with all trainers and throw stones at the right holes. Walk to Claire. U three Dragonairs and Kingdra. Use the ice attack for Dragonairs and Dragon Attacks for (Or if you use save stats like me, good luck abusing Hypnosis with Haunter/Gengar and Dream Eater them all to death). Watch out for Dragonairs shed skin ability! Yes, the last Not badge. Clair refuses to give you a badge. Damn it. Go to the Dragon Den (you have to bring Clamperl for whirlpools) and get Dragons Tooth. Claire will come to you and give you a badge. There are three Dragon Masters in the den. Depending on what you beat them, you get a certain stone of evolution. Leave the Lair to get a call from Professor Elm. He wants you back. Blackthorne exit on the south exit (don't forget to buy Ultra Balls for later!!!) Blackhorn at New Bark Just follow the road down, fighting trainers on the way. Eventually you will arrive on the first route. Follow him back to New Bark Town. New Bark Town 3rd Visit Enter The Lab and talk to Professor Elms. You'll get Master Ball! Go to the water and swim to Kanto (it is very rare to meet Squirtle in the water!). New Bark in Pokemon League You have already arrived in Kanto. Are you sure you are ready to meet with elite coaches? You need a Pokemon to know the waterfall to climb to Toho Falls (the anagram of Johto Falls). But what is it! Amelia comes out of the cave to fight you again. Hit her sorry and enter the cave. There is a moonstone inside (if you have Eevee, you can get Umbreon, or develop your Clamperl). Climb the waterfall and get out of the cave. Swim through and battle all the trainers on the way. Eventually you will come across a house where you can rest your Pokemon. A little further is the girl who is attacked by Pikachu (I always knew that Pikachu was evil). But no, it's a trap! She (Ashley) and her Pikachu steal your badges! Fight her Pikachu to get you the badges that are hidden on the ground. Fight with two coaches and enter the Winning Road. Go to your PC and get out the Pokemon who know HMs Surf, Power, Rock Smash and Clamperl with Whirlpool. The potion redesign the cave, so you will need a few HM slaves. It's evil, the man you are. Make your way through the cave until you reach the exit on the right side. Tap the boulders, and just when you are about to leave the cave, the opponent (silver) appears to fight. Kick it (last time in this beta) and enter the Pokemon League building. Pokemon League Heal all your Pokemon and store a lot of healing and reviving items. There's also an old man with Pidgeot and he can teleport you home if you need more training. But hey, if you've followed this step-by-step guide, you should have no problem! Its time to finally fight E4! Champion! First, Will with his psychic Pokemon. A strong electric Pokemon can take care of its two Xatu and its Slowbro. I just used my Gengar to lay it out with my newly learned Shadow Ball. Next up is Koga, a former gym manager. He uses poisonous Most of his Pokemon are weak to shoot, but use psychic or electric Pokemon for his Crobat. Bruno, one of the first members of E4. Use Ghost/Psychic/Fight/Psychic/Flight Hes the easiest Karen is a Dark Pokemon user. Use a combat attack against her Umbreon and then use the types that her other Pokemon are weak against. Now it's his time for the champion, Lance. He will start with Gyrodos. Use electrical attacks. Use Ice (or Good Luck to Manipulate Hypnosis and Nightline or Shadow Ball) to his Dragonites. Use water against Charizard and Aerodactyl. Its finally over. Not! Zel. I mean, Carlos challenged us for the title. All his Pokemon on Lv50. Mixed team to win. Kick it to finish the game (Well, Johto part at least). New Bark Town 4th visit You start in front of your home. Move the step to get a call from Professor Elm. He has a present for you. Go to the lab, talk to him and get an S.S. Ticket. Now head to Olivine City to get on the boat. Olivine's Vermillion Jump Inside the Boat. The old man will ask if you've seen his granddaughter. Two sailors come and say they'll find her. Combat trainers, if you like, and head below deck. A sailor doesn't want to miss you. Find your friend above the deck in one of the rooms. Fight him back and forth under deck. The sailor will let you pass. Go to the captains' quarters and talk to the girl. Girl and you will be deformed back into the cabin of her grandfathers. Get out of the cockpit. Two sailors (who wanted to find her first) wanted to kidnap her! They were really Jess and Jamie! That's when the boat sinks. Go to the captains' room and check his desk. There will be some text about the key. Now you can leave the ship. You're in a cave. It's a light cave. Larvitar is in a cave as well if you don't want one on the corner of the game. Just follow the route until you reach the room with Jess and Jamie. Fight them and hit them. Move up a bit and take the GS-Ball. What is this!!! We are attacked by wild Lv60 Aggron (WTF???) I told you to buy Ultra Balls in Blackthorne, didn't I? Grab it; He's good for later fights. Take the long stairs and get out of the cave. We're in Vermillion City now! Vermillion City Wow, this time (unlike gold) the building is finished! Unfortunately, zel hasn't opened his qtg. qgt; go to the gym. Yes, you don't have to make annoying switches! Beat Surge. It should be easy with Swampert. Unfortunately, unlike gold, you don't get TM L It also has a message from Carlos. That he'll get you later. (Damn, not a good loser). Head north to Saffron City's Saffron City 1st visit, two cliffs blocking the path to Lavender and Celeron. This is available in this beta yet. Go to Sabrina's gym. The pot was evil to us again! He changed teleports! Battle Sabrina when you eventually reach her. My Pokemon levels were basically the same. Just use Gengar or Umbreon or any other Dark/Ghost Pokemon. It will go down easily. Leave the gym and head north to Cerulean. Just when you want to enter Cerulean, you call from Professor Elms. Tell him about GS-Ball, and he'll tell you to visit him. SS Aqua II is also in Vermillion. New Bark Town 5th Visit Take Boat Boat Johto and enter Professor Elms Laboratory in New Bark Town. Talk to him. He tells you to go to Kurt's. Azelea City 2nd visit Yes, you can fly to the city of Azelea, but it will not cause an event. You have to go to Union Cave to call it. When you arrive in Azelea, enter Kurts' house and talk to him. It will take GS-Ball for a while. Go through the Forest of Ilex, and when you get out of it, fly back to Azelea and get the GS-Ball back from Kurt. Enter Ilex again and put the GS-Ball in the sanctuary. Celphy will appear (after 153 resets I finally got Brilliant Celebi). Grab it and take the boat back to Kanto and go to Saffron again. Saffron City 2nd visit Go to Silph'Co, and talk to the guard. Saffron's exit through the south exit. You will see Ashley and her evil Pikachu again. Talk to her and fight her. Now she also has Snorlax! Aggrons Iron Tail can 1HKO it. After beating it up, you get a prototype. Go back to Silf Co. Now you can go upstairs. But what is it? Everyone's asleep. On the upper level of the building, one guard woke up and would fight you with Arcanine and Houndoom (for starter Cyndaquil) or Mightyena (for totodile starter). Water / Fight Pokemon for Victory! Go to the room. Oh no, it's Jess and Jamie again. Finally their Ekans and Koffing have evolved and they also have Cacturne now. Deal with them and talk to the manager. He says that someone who knows a lot of ghosts in Johto knows how to fix the Ghost Buster. Who in Johto knows a lot about ghosts? Morty. Ecruteak Gym Leader, of course! Take a boat to Vermillion in Olivine and head to Ecruteak. Ecruteak 2nd visit (3rd if you have Ho-O) What? Hes's not in the gym! Go to the burnt tower and go to where you let the dogs go. Morty's there. He'll fix it, but only if you beat him in battle. Well, he did some serious training. His ghosts are around lv40 now and he is Misdreavus. Your own Dark/Psychic/Ghost must be strong enough to defeat them all. After the battle it fixes the Ghost of Buster, and it's time for you to move on to Cerulean. Serulean City Well, look who's standing in front of the gym. His Carlos and he wants to see blood. His Snordax and Blissy easily beat the Lv60 Aggron. Beat it (last time in this beta). Go east. Thanks to Ghost Buster, we can identify a darn ghost blocking the path. His Lv42 Haunter (Western dead end way to Mount Luna has Gengar). Catch them if you want and make your way through all the trainers. Absol can be caught on this route, so be prepared. Then surf to the power plant. Look who we have here. His Amelia. But she's not here to fight. She says it's the league champion's duty to recover the stolen part of the car. Fly back to Cerulean and enter the gym. A rocket with speech dysfunction says something about part of the machine before leaving. Head north from Cerulean to the Nugget Bridge. Blow Rocket and go back to the gym. Part of it is somewhere in the water! After restoring the part, return it to the Power manager next to the generators (you get TM zap Canon). A what? Rock tunnel also blocked? Yes, for the same reason as Celedon and Lavender. Fly back to Serulean. Go Nugget Bridge again and battle trainers. Eventually you'll see Misty on a date, but her boyfriend will run away after seeing you. Misty will be back at the gym. Rival couple also have. Fight them if you want to. They're as simple as ever. What is it, the route behind the old Bills house? Yes, this leads to a new entrance to the Mewtwo Lair. But it was closed because it is not yet complete. Go back to the gym and fight Mty. You should already know that water wins. Its now is the time to make the final event in the game. Magnetic pass. Saffron City 3rd visit Go to the Copycats house and talk to her. She lost her Clefey doll, poor of her. It will give you a pass on the magnetic train if you recover the doll. Fly to Vermillion, enter the Pokemon fan club and talk to a chubby guy. You'll get a Clefey doll. Now return it to the Girl Copycat in Saffron to get a Pass.
